Established Project Manager with proven track record for building teams and delivering results in challenging and fast-paced environments. Special interests include data management, data science, computer games, and full-stack web development. Ultimate goal is to help build new, cutting edge technology that improves people's lives. Comfortable in Agile environment using SCRUM methodologies.

## Technical Skills

**Languages:** Javascript, PHP, and C#

**Front End Technologies:** HTML5, CSS3, Sass, JQuery, Media Queries, AJAX, APIs

**Frameworks:** Bootstrap, Materialize, React-Materialize, UIKit

**Server Technologies:** Node.js, Express, ASP.NET, CLI and React.js

**Databases:** Firebase, MongoDB, MySQL, SQL, Entity Framework

**IDEs:** Visual Studio Code, Visual Studio

**Other:** GIT, Github, Jasmine js, unit testing

## Core Competencies

Customer service, public speaking, communication, inter-departmental collaboration, human resources, coaching, team-building, meeting facilitation, planning, logistics, crisis-management, agile SCRUM methodologies, quantified modal logic with set theory

## Projects

**YOSO: You Only Shop Once** | <https://yoso-app.herokuapp.com/>

- Shopping and pantry helper that writes shopping lists based on user shopping patterns, warns of potential waste, and offers access to recipes in order to use everything you have or experiment with fun ideas.
- Multi-page React App using Express, React Router, React Context API, React-Materialize, React Table, Moment NPM package, and the Yumly API.

**A1 Guitar Learner** | <https://github.com/bryan-lee-git/group-project>

- The app provides several tools for guitar students and experts alike, including live tuner, metronome, access to Songsterr database of guitar tabs, and training videos on YouTube.
- Front end developed in Materialize with APIs connected to Songsterr and YouTube. Authentication and database established through Firebase.

**Star Wars Pit Fight** | [https://jamesschlader.github.io/star\\_wars\\_pit\\_fight/](https://jamesschlader.github.io/star_wars_pit_fight/)

- Choose a champion from among a list of Star Wars heroes and villains and fight it out against a series of opponents. Your champions' power increases the longer they survive.
- Deploys Javascript and JQuery for DOM manipulation, dynamic object construction, and uses CSS Grid for front end presentation.

## Experience

***Drug Store Manager, Walgreens, West Jordan, Utah*****(11/2005 – 04/2018)**

- Delivered highest sales and profit in the district.
- Used strategic thinking to increase seasonal and incremental sales year over year at multiple locations.
- Collaboratively worked with department leaders to maximize productivity and sales.
- Proactively planned for obstacles, delegated tasks to overcome them, and executed for success.
- Used sales trends data to adjust planning and proactively reduce impact of market level changes.
- Increased prescription count despite direct competitor moving in directly across the street.
- Coached, trained, and developed a number of Executive Assistant Managers into Store Manager.
- Grew net profits despite decline in overall customer traffic.
- Executed on weekly targets while 10-15% under labor budget.
- Improved overall employee engagement year over year.

**Education**

University of Utah Coding Bootcamp (2019)

Completed Computer Science coursework at Idaho State University

Graduate Studies in Philosophy at University of Nebraska

Bachelors of Arts in Philosophy from Boise State University
